Diesel Particulate Filters

Our DPF's are:

- ✓ **Directly replaceable with OE products**
- ✓ **Tested at Dinex Test Center**
- ✓ **Made according to OE technology - Comparable PGM loading**
- ✓ **Higher soot load capacity, PGM and longer lifetime**

compared to regenerated DPF

Cordierite. Today's leading technology in emission field. Offers serious performance for a lower, more affordable price while keeping tight focus on heat-up efficiency. All Dinex emission solutions are encased in high quality stainless steel mantles, coupled to the substrate via a vibration mat for top-notch holding force and impact protection.
