

Dinex offers advanced Pipe Technology Systems!

going the extra mile

Dinex delivers a complete range of cutting-edge Pipe Technology Systems for direct and precise replacement of OE parts. Our comprehensive product range includes OE grade 3S Flexible hoses, bellows, low-leakage clamps, and bended stainless steel pipes ranging from 2" to 5" in diameter. Utilizing advanced in-house production techniques, we ensure longevity by minimizing welds and joints, while our insulation techniques maintain optimal temperature control. [Trust Dinex for top-quality parts that meet rigorous standards.](#)

409 Stainless Steel

Ferritic automotive standard for excellent durability, formability and corrosive resistance.

Insulation

Several insulation techniques available to ensure proper heat retention for pipes & aftertreatment systems.

OE Grade

Bellows & 3S Flex

Offer superior durability & flexibility in the field.

Direct OE replacement

Budget-friendly compared to OE models

3 year warranty on all pipes & 1 year warranty on bellows and flex
