Group Operations		Document Author: VID
POLICY		Document Number: 00_04_00_00
Document rev.: 1		Released: 01.02.2024

We, "Dinex Latvia" Ltd., as a metalworking company specializing in the production of exhaust systems for vehicles, undertake to provide quality products that meet international automotive industry standards and customer requirements, while guaranteeing the safety and reliability of vehicles.

We commit to:

- *Comply with all requirements of the IATF 16949 standard to ensure the production of high-quality and safe exhaust systems for vehicles;*
- *Produce exhaust systems that meet high standards for safety, durability, and long-term operation of vehicles;*
- *Continuously improve production processes to ensure efficiency, reduce costs and increase quality;*
- *Respond to customer requirements and continuously improve the quality of the developed products, considering customer feedback and wishes;*
- *Motivate and train employees to be competent and involved in the process of quality improvement;*
- *Maintain close cooperation with suppliers to guarantee high quality raw materials and components;*
- *Carry out regular inspections and evaluations to ensure continuous improvement of the system and achievement of quality objectives.*

The quality policy of "Dinex Latvia" Ltd. is the basis for the activities of our company, which is oriented towards excellence, safety, and constant improvement, meeting the requirements of the IATF 16949 standard.

SIA "Dinex Latvia" General Manager _____  Naresh Nagarwal
