

DEF Pumps, Injectors, and Filters
For direct replacement of OE parts

going the extra mile

Your Partner in Exhaust and Emission

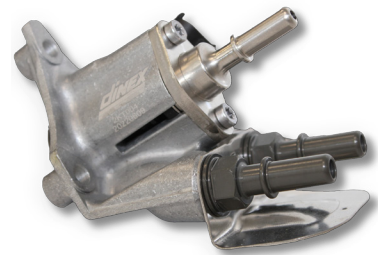

We are proud to offer a complete range of DEF systems as part of our DinTronic line! In addition to our top-quality DEF injectors and DEF pumps, we now provide DEF filters to ensure the comprehensive health of your aftertreatment system.

Maintaining a healthy DEF system is crucial for preventing common ATS issues like DEF crystallization, SCR blockage, and NOx sensor failure. By regularly maintaining injectors, pumps, and filters, you can avoid costly repairs. Invest in Dinex's complete DEF solutions to keep your heavy-duty vehicles operating at peak efficiency.

DinTronic, DEF Injectors

Our DEF Injectors are:

- Directly replaceable with OE injectors
- Tested at Dinex test center
- Stock item for fast delivery
- A cost effective balance between emission control and Urea consumption
