

# Exceeding Benchmarks for Light Commercial Vehicles

Dinex Generation 2 technology has proven it's worth with Heavy Duty vehicles, and is now available for the lighter part of the segment.

All You Need From Turbo To Tailpipe

## NO<sub>x</sub> Sensors by Dinex, for Vans

### Seamless Compatibility

Where Aftermarket sensors often fail due to software issues, Dinex Generation 2 programming is designed for future-oriented compatibility, even after ECU updates.

### Save Costs with High Accuracy

The latest sensing components ensures accurate dosing for years, optimizing AdBlue® consumption and preventing costly aftertreatment crystallization repairs.

### Build for the Toughest Roads

Designed to withstand thermal shocks & fluctuations, extreme heat, condensation, soot, contamination, moisture and dust. In other words: Designed for durability.
